Come and experience the magic of fall with Camp Korey! Kids and teens will explore the Wizarding World and discover the magic within themselves through activities like an Enchanted Forest scavenger hunt, "Potions Class," and wand-making.

For children and adolescents: Kids of all ages will have the chance to unleash their imaginations, creativity, and curiosity while building community and self-empowerment. Explore a world of infinite possibility – where there are no wrong answers if you're willing to try new things!

For parents and caregivers: Meet other parents of children with brain injuries, and staff from Seattle Children's, Camp Korey, HeadStrong, and the BIAWA. Krista Hanson, yoga instructor and special-needs parent, will lead us in mindful movement, reflection and relaxation practices. Come experience the magic of self-care and connection with other parents.

Refreshments will be served.

Please RSVP by October 17 as space is limited.

Childcare available onsite for children under the age of 5.
