

November 21, 2016

*"I was very discouraged and depressed when I called. I now feel a glimmer of hope. **Thank you** for being there."*

As we celebrate the holidays, we reflect on all that we are **thankful** for in 2016:

- The expansion of Brain Health and Wellness classes to Puyallup
- The *only* Return to Academics/Return to Play document published in the state
- The opportunity to reach more than 25,000 individuals through 150 days of conferences and outreach events
- The thousands of Brain Injury survivors who received the resources that they deserve

If you have been a member or contributed in the past, the Brain Injury Community in Washington is **grateful** for your support. Every 19 seconds, someone sustains a Brain Injury, and Brain Injury continues to be the leading cause of death and disability for most age groups. By giving back to those who need it most, you have created a difference in the lives of those affected by Brain Injury.

"Without a doubt, my resource manager from the Brain Injury Alliance of Washington saved my life"

Please renew your membership today to ensure that those affected by Brain Injury continue to have access to the services they need. Your Annual Membership is a steady and reliable funding source that allows these efforts to not only continue, but also expand.

Your membership dues will help BIAWA:

- Maintain free resources statewide, including the toll-free Resource Line, in-person Resource Management, support groups, and caregiver training
- Offer scholarship funding to individuals with Brain Injury and future providers to give them the opportunity to further their educational and professional goals
- Ensure prevention remains a top priority, including youth sports concussions, cycling, pedestrian, motor vehicle and falls.

*"I am not the same person that I was before my TBI, and in many ways I still struggle with things that I never thought about before it, but I like and love the person that I am today and am so **thankful** that I have had my brain injury community to help me become that person. Thank you!"*

Thank you for your consideration. Your continued support is the difference between a Brain Injury Survivor and a Brain Injury Thriver.

Deborah Crawley
